PROFESSIONAL
EXPERIENCE

Data Analyst

- Conducted data analysis and visualization to support business decision-making, leveraging tools such as Excel, Power BI, and Python.
- Cleaned, transformed, and analyzed large datasets to identify trends, patterns, and actionable insights.
- Developed interactive dashboards and reports in Power BI to present findings to stakeholders.
- Automated repetitive tasks and performed advanced data manipulation using Python libraries such as Pandas, NumPy, and Matplotlib.
- Collaborated with cross-functional teams to define key performance indicators (KPIs) and deliver data-driven solutions.
- Improved data accuracy and reporting efficiency by optimizing workflows and implementing best practices.

EDUCATION

Menofia University | 2022-2026

Bachelor of Science in Mathematics and Computer Science

- **Relevant Coursework:** Data Analysis, Probability, Statistical Modeling, Python Programming, Database Systems, Machine Learning.

Google Data Analytics Professional Certificate Coursera | 22/3/2023-22/8/2023

- Gained proficiency in data cleaning, analysis, and visualization using SQL, Excel, Tableau, and R.
- Completed capstone projects to analyze real-world datasets and present actionable insights.

TECHNICAL SKILLS

Programming Languages:

- Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)
- SQL (MySQL, SQL Server)

Data Cleaning and Preparation:

- Handling missing data
- Data transformation and normalization
- Data wrangling with Python

Data Visualization Tools:

- Power BI
- Excel (PivotTables, Charts, Conditional Formatting)
- Matplotlib, Seaborn, Plotly (Python libraries)
